

ABSTRACT

A polarizing plate of the present invention comprising a
5 polarizer and a protective film provided on at least one surface
thereof with an adhesive layer, wherein the protective film
comprises (A) a thermoplastic resin having a substituted and/or
non-substituted imide group in a side chain and (B) a thermoplastic
resin having a substituted and/or non-substituted phenyl group,
10 and nitrile group in a side chain, and the adhesive layer comprises
a polyurethane adhesive containing a urethane polyol and an
isocyanate crosslinking agent. The polarizing plate exhibits good
resistance moisture.
